CAREER OBJECTIVE

Motivated Computer Science graduate with strong foundations in Software Development. Experienced in building AI-driven applications using modern frameworks and technologies. Looking for an opportunity to utilize my technical skills, contribute to organizational success, and continuously enhance my professional expertise.

EDUCATION

Bachelor of Computer Science & Engineering , <i>Rathinam Technical Campus</i> CGPA: 7.60	2023 – present Coimbatore
Higher Secondary , <i>Holy Cross Matriculation Higher Secondary School</i>	2021 – 2023

KEY SKILLS

AI & Machine Learning

Model Training, Evaluation, Regularization

Computer Vision

OpenCV, Face Recognition, Image Classification

AI Agents

LangChain, Agentic AI

Tools

NumPy, Pandas

Cloud & Deployment

AWS Services, Model Deployment

Version Control

Git, GitHub

Programming Languages

Java, Python, SQL

PROJECTS

Potato Disease Classification using CNN (Deep Learning)

- Collected and preprocessed potato leaf images through resizing, normalization, and data augmentation, then trained a CNN model to classify healthy and diseased potato leaves with high accuracy.
- Evaluated the model using validation metrics and deployed a prediction interface that identifies potato diseases from uploaded leaf images, supporting early disease detection and crop management.

Tech Stack : CNN, Tensorflow, Keras, Kaggle, Streamlit, Deep Learning

Customer Segmentation Mall prediction

- Preprocessed and standardized mall customer data using Pandas and Scikit-learn, then applied the Elbow Method and K-Means Clustering to identify distinct customer segments based on income and spending behavior.
- Developed a Streamlit web application for real-time customer segment prediction, enabling interactive visualization and analysis of customer groups for targeted marketing strategies.

Tech Stack: Numpy, Pandas, Matplotlib, Seaborn

CERTIFICATES

AWS Skill Builder Certificate

AWS Services And Concepts.

Data Manipulation with Pandas

DataCamp

Intermediate Python

DataCamp

SOFT SKILLS

- Time Management
- Adaptability
- Leadership
