CAREER OBJECTIVE

Aspiring **AI/ML Engineer** with strong foundations in **Machine Learning, Deep Learning, and Generative AI**. Experienced in building **LLM applications, RAG pipelines, and AI agent systems using LangChain and LangGraph**. Passionate about developing scalable AI solutions and applying data-driven approaches to solve real-world problems.

EDUCATION

Rathinam Technical Campus <i>Bachelor of Information Technology</i> CGPA - 7.6	09/2023 – Present Coimbatore, India
A.R.L.M. Matriculation Higher Secondary School HSC - 84%	06/2021 – 04/2023 Cuddalore, India
Kamatchi Shanmugam Matriculation School SSLC - 100%	06/2020 – 04/2021 Cuddalore, India

SKILLS

AI & Machine Learning Model Training, Evaluation, Optimization, Regularization	Deep Learning ANN, CNN, RNN, LSTM, GRU
Computer Vision OpenCV, Face Recognition, Image Classification	Generative AI LLMs, Prompt Engineering, RAG, Transformers
AI Agents LangChain, LangGraph, CrewAI, MCP, Agentic AI	Programming & Tools NumPy, Pandas, SpaCy, NLTK, Gensim, fastText, Dialogflow
Cloud & Deployment AWS (Basics), Model Deployment	Version Control Git, GitHub

PROJECTS

- Smart Placement Preparation Assistant using Agentic AI and RAG** 🔗
- Developed an AI-powered placement preparation platform using **LangGraph, Groq LLM, and RAG** to analyze resumes against job descriptions, identify skill gaps, and calculate placement readiness scores.
 - Implemented a **multi-agent workflow** for job skill extraction, semantic resume matching using **ChromaDB and Sentence Transformers**, and generation of personalized learning roadmaps.
 - Integrated **AWS S3, DynamoDB, IAM, and EC2** for cloud-based resume storage, analysis history management, secure access control, and scalable deployment.
- AI Crop Prediction & Farming Advisor** 🔗
- Developed an **AI-based Crop Prediction system using Machine Learning** that predicts optimal crops using **soil nutrients (N, P, K, pH) and weather data**.
 - Integrated **LangGraph AI agents with weather APIs and scikit-learn models** to generate automated farming recommendations.
 - Built an **interactive Streamlit dashboard for real-time crop recommendations**.
- PDF-RAG-Assistant** 🔗
- Developed a **RAG-based PDF Question Answering system using LangChain, ChromaDB, and Groq LLM**.
 - Implemented **document processing pipeline with PDF parsing, chunking, embeddings (Sentence Transformers), and semantic retrieval**.
 - Built a **Streamlit interface enabling users to upload PDFs and retrieve context-aware answers in real time**.

INTERNSHIP

Aaha Solutions 🔗 <i>Intern - System Analysis</i>	01/2025 – 02/2025 Pondicherry, India
--	--

Analyzed system requirements for real-estate web applications and created functional specification documents. Collaborated with developers to translate business requirements into technical workflows and data structures.

CERTIFICATES

- | | | |
|---|--|--|
| • AWS Certified AI Practitioner 🔗 | • Associate Data Scientist in Python-Data Camp 🔗 | • Supervised Learning with scikit-learn -Data Camp 🔗 |
| • Machine Learning with Tree-Based Models in Python 🔗 | • Unsupervised Learning in Python 🔗 | • Exploratory Data Analysis in Python 🔗 |
